

MassDEP is offering this **free** seminar to educate you on state and federal environmental regulations as they pertain to coatings and to provide you with resources available to help your business. Tracking software, technical assistance and a discussion on alternative technologies are just some of the topics that will be covered.

As an industry in Massachusetts, you are part of a large network leading the way in environmentally-friendly technologies and products. Together, we can ensure that Massachusetts continues to be a leader in this field.
